Number 284 LK - VNA to all (Interzones?), Propaganda and Literature-Art Offices  
 of (Interzone 5?), South Vietnam--

In extracting the information from the news bulletins from all places concerning  
 the success of the production economy campaign, VNA proposes (the Interzone?) to  
 send documents and articles on the economy movement among the people, highlighting:

1. The issue of waste among the people, from the beginning until now,  
 such as waste of money in superstitious practices; waste of time and manpower  
 by laziness, procrastination, or excessive leisure (as on March 8, due to the  
 fact that they did not organize mutual assistance in people's labor, etc.);  
 waste of land due to shortage of cattle or seed. Emphasize figures concerning  
 these wastes, using generalized yet concrete figures and giving reasons why  
 such wastes exist.

2. How did the people realize economy? Praise clearly the fact that they  
 have studied, practiced ... (two words unreadable--ed) President Ho's policy,  
 "the people must speed up production by economy": Establish an antiwaste  
 plan in each family, hamlet, village et cetera; effect the reduction of  
 extravagant expenditures, organize assistance to families which have members  
 contributing to the people's labor; develop the brigades for (shifting  
 people's labor?), for (coordinating?) local handicraft, for a logical  
 division of labor; make use of all old people's, women's and children's  
 potentiality for production in each village and family. Exploit the influence  
 exerted by the role of the individual model emulation fighter in the locality.  
 It is advisable to introduce some families in the village or district repre-  
 sentative of the attainment of economy. Emphasize the fact that economy speeds  
 up production, and link the task of realizing the production economy plan of  
 the locality with other concrete objectives such as antibureaucratism, anti-  
 graft, and antiwaste in that locality.

Result and Influence -- please pay attention to writing in a concrete style.
